SOLAR ENERGY LOAN

Applying for financing for solar energy solutions to power your home with efficient energy stability has become a necessity to ensure reliable power supply, better control of your finances and managing your bills. RMB Private Bank now offers so much more when it comes to financing solar energy solutions. You can now apply for a solar energy loan to be added onto your Home Loan, Structured Loan or Single Facility® application.

HOW IT WORKS?

- When purchasing a new property, utilizing funds in an existing property or when switching a property from another institution, you can also apply for a solar energy loan to be added onto your application
- We will value your property at a higher amount to cater for the future installation of a solar energy system and will register a higher mortgage bond
- If you have an existing Home Loan, Single Facility® or Structured Loan and have equity in your property or access to a future use bond, then no new bond will need to be registered, however you will need to undergo a credit assessment and property valuation
- You must purchase your solar energy solution from an accredited service provider, as per the RMB accreditation criteria, in order to qualify for the solar energy loan

IMPORTANT RMB PRIVATE BANK ACCREDITATION INCLUDES:

- The South African Photovoltaic Industry Association's (SAPVIA) PV GreenCard, and/or The Association for Renewable Energy practitioners' (AREP) P4 Certificate.
- The provider you ultimately choose should also be able to provide you with a Certificate of Compliance (CoC) from a registered electrician after installation, and the electrician should be able to show you their Department of Labour registration certificate. These certificates are important for insurance purposes. As a final check, ask each prospective provider about their after-sales and technical support and maintenance costs.

PENSION BACKED LOANS

A pension backed loan allows you to buy, renovate or build the home of your dreams or even improve your home through alternative energy and energy saving solutions. A home is probably one of the biggest investments you will make. Fortunately, you can share the experience with professionals who can make the journey easier for you.

This is why we offer a solution such as our Pension Backed Loan which allows you to own that property of your dreams whilst using your pension as security

WHAT IS THE PENSION BACKED LOAN?

The pension backed loan is secured against the member’s fund value. You may qualify for the loan if you are a member of the Fund and there is an agreement in place between the bank, the Fund, the Fund Administrator and the employer.

Although it is allowed, not all pension funds provide this benefit, the benefit would need to form part of the pension fund rules, so you would need to confirm this with your employer first.
